EDUCATION

Escuela Superior Politécnica de Chimborazo

B.S. Physics

– Advisor: Julio Andrade, MSc

– Thesis: Gravastar model with vanishing complexity

Riobamba, Ecuador

Oct 2020 - Feb 2025

Troy University

M.S. Mathematical Physics

Troy, AL, USA

Aug 2026 - present

PROFESSIONAL EXPERIENCE

Graduate Teaching Assistant, Dept. of Chemistry and Physics, Troy University

Aug 2026 - present

Math Teacher, Unidad Educativa Fiscomisional Cacha

Apr - Jun 2026

Research Associate, Grupo de Energías Alternativas y Ambiente

Sep - Dec 2025

Research Assistant, Grupo de Energías Alternativas y Ambiente

Oct 2024 - Jan 2025

CONFERENCES & ADDITIONAL TRAINING

Abstract Algebra and General Topology Course

Yachay Tech University, Ecuador

Online

Jan - Feb 2026

Theoretical Summer

Universidad Mayor de San Andrés, Bolivia

Online

Jan 2026

III Symposium on Theoretical and Computational Physics

Yachay Tech University, Ecuador

Urcuquí, Ecuador

Jan 2026

XI Ecuadorian School of Astronomy and Astrophysics

Escuela Politécnica Nacional, Ecuador

Online

Jul - Aug 2025

II São Paulo School on Gravitational Physics

Brazil

Online

Jul 2025

II Symposium on Theoretical and Computational Physics

Yachay Tech University, Ecuador

Urcuquí, Ecuador

Jan 2025

V International Conference of Physics 2024

Escuela Superior Politécnica de Chimborazo, Ecuador

Riobamba, Ecuador

Oct 2024

IV International Conference of Physics 2023

Escuela Superior Politécnica de Chimborazo, Ecuador

Riobamba, Ecuador

Oct 2023

AWARDS

Best Poster Award, Gravastar model with vanishing complexity

2026

OUTREACH & EXTRACURRICULAR ACTIVITIES

Outreach activities

Hands-On Astronomy volunteer, OEAA

2023

Project coordinator of the Introduction to General Relativity mini course, PWF-ICTP, CFEN, ESPOCH

2023

Introduction to LaTeX course, CFEN

2023

Responsibilities

Undergrad Student Representative, ESPOCH

2023 - 2025

ACADEMIC EVENTS

Contributed posters marked with *

TALKS

III Symposium on Theoretical and Computational Physics: * *Gravastars model with vanishing complexity*, Urcuquí, Ecuador (Jan 2026)

Scientific Coffee: *Gravastars, the missing piece of the cosmic puzzle?*, Riobamba, Ecuador (Nov 2024)

WORKSHOPS

Qiskit Fall Fest 2025 ESPOCH: *Quantum Machine Learning with Qiskit*, Riobamba, Ecuador (Nov 2025)

COMPUTATIONAL SKILLS

Programming languages: Python, Mathematica, Git.

Libraries: scikit-learn, numpy, matplotlib, xarray, pandas, etc.

Tools: GitHub, $\LaTeX$.

LANGUAGES

Spanish (native), **English** (fluent), **Chinese** (basic).
